

Session 4: Innovative Advising: The Millennial Mind

About the Speaker: Amanda Aguillard decided to become a CPA when she was 16, and never looked back. She started Aguillard Accounting LLC in 2012, committed to running a cloud-based practice from anywhere in the world.

Aguillard Accounting is a Xero Gold Partner and Cloud Integrator, Vend Certified Advisor, Clio Certified Consultant and Deputy Certified Advisor, amongst others, and Amanda regularly teaches the Xero Partner Certification course.

While she holds a Master's Degree in Taxation from the University of Denver, she would much rather craft and implement ecosystems for retailers, law firms and creatives, and help other advisors build and grow cloud-based practices. She spends any spare time cooking for her two kids and reading historical fiction.

She is the Xero Ambassador for the Southwest US and Co-Founder of elephant, a Xero training company.
