Jordan Edelson, Owner Appetizer Mobile App, LLC – New York SBDC

When I was a Freshman at the University At Albany, I was a young curious kid that was trying to start an online gaming business. My internship at the SBDC is where I learned where the rubber meets the road. The Center reviewed and helped me improve my business plan and hone my business acumen that has carried me to successfully start several companies and raise capital equity investment. The SBDC even helped promote my business by getting a local news anchor to do a story that aired on the local CBS affiliate. Thank you SBDC for the great opportunity.”

Robbie Shoults, Owner Bear Creek Smokehouse – North Texas SBDC

“Working with the SBDC has been a great experience. They have helped sustain our company in various ways by showing us how to improve our cash flow, our bottom line and our competitiveness in the market place through resources available to small businesses in East Texas. I would highly recommend any small business owner to the SBDC staff and let them put their expertise to work for you.”

Kathryn Murphy, Owner Comfort Keepers Jacksonville – Florida SBDC

“For over a decade I have had the pleasure of being a client of the FSBDC. In the beginning, my needs as a new business owner were met through many of their “spot on” business focused classes led by instructors’ eager to teach. Funding and positioning for expansion, marketing, strategic planning and risk management grew as top priorities. I look forward to working with the FSBDC for the next decade while we work together in tackling the ever-increasing challenges that face small business owners.”

Francesca Hartop, Owner YEI Technology - Ohio SBDC

“I would strongly recommend any entrepreneur to contact [an] SBDC in *their* area. If you are serious about starting or growing your business whether you think you need specific help right now or not, start that relationship with them. As entrepreneurs, we think we can do anything, but in the midst of doing the job ourselves we do not reach out the way we should. Find the time. Get to know an advisor. Someday they will help you in unexpected and fabulous ways. Trust me.”
