

Huey Lee is the current Director of Special Projects with Northwest Texas SBDC Network (NWTSBDC) at Texas Tech University. She joined the NWTSBDC in 1998 serving as a Senior Technology Consultant. She subsequently served as the Manager and later the Director of its Information Technology Department. Huey Lee oversaw the full system migration of the NWTSBDC system and network infrastructure to the Texas Tech University Network in 2019 - 2020.

Huey assisted with efforts to help small businesses under the CARES Act Program at the inception of the COVID-19 Pandemic. She quickly setup the website, tracking system, and video conferencing capability for a hotline that helped small businesses seeking disaster relief. She swiftly enabled remote work capability for SBDC employees to work safely and effectively from home. She assisted in the initial stages of CARES Act program and eventually became the program director who led the CARES Team that assisted over 3,500 small businesses which received more than \$76,000,000 in capital funding and supported over 10,000 jobs in the last year.

Huey has a B.S. in Computer Information Systems from Missouri State University and a M.S. in Business Administration from Texas Tech University. She has also completed coursework in Executive Leadership at Cornell University
