Experience

Lisa Napolitano is a successful entrepreneur, trusted advisor, business coach, and skilled executive with more than 25 years of experience helping companies improve their processes and people to drive performance. From 1991 to 2006 Lisa ran an industry association, growing it from 2 employees and 150 US-based clients to 20 employees and 6,000 clients globally. Her experience extends to the hospitality industry, having owned a fine dining establishment in the largest suburb of Chicago, and managing operations of a 17-cabin resort in the Northwoods of Minnesota.

The best advice I have ever been given is:

Do the best you can until you know better. Then when you know better, do better.
