

J'Mari joined the VI SBDC team in February 2020 during his freshman year at University of the Virgin Islands (UVI), just before the pandemic. He was attracted to the SBDC organization as a whole but more so as a student pursuing a Bachelor of Arts in Business Administration with a concentration in Management. During his senior year at UVI and while engaged in his studies, he remained active in several academic organizations to include the Golden Key International Honor Society. Since coming on board full-time as the Administrative Specialist II, J'Mari has quickly adapted to the work environment at the VI SBDC by becoming proficient in customer service, front desk management and administrative support to the entire staff. He continuously builds upon his communication, adaptability and time management skills and displays enthusiasm for teamwork. Recognized publicly by VI SBDC clients on multiple occasions for his calm demeanor and willingness to help, the VI SBDC team is fortunate to be a part of his professional development as he aims to one day become a small business owner and accomplish his goals in life.
