Talk Childcare to Me, LLC  
Louisville, KY

Talk Childcare to Me got its start in Louisville by owners Asia and William Rivers. We decided to do things a bit differently at Talk Childcare to Me by creating a space which fosters early learning in a fun and safe environment where children from 6 weeks to 5 years can explore the world around them.

We believe our innovative approach gives children a bright and positive start in life as we encourage both exploration and discovery as well as emotional intelligence and building friendships. They are given independence to guide their own learning and, inspired by the Reggio-Emilia approach, we believe that every child has the capacity to learn in their own way and will develop their own unique way of communicating and learning.
