

Hasten Services LLC is a veteran owned company in WV offering Quality Facility Management services, security services, investigative services and contracting services. James Merrill reached out to coach Frank Goldsborough to get assistance in registering their business on [SAMS.GOV](https://www.sams.gov) and to get Hubzone Certified. Frank provided desk side assistance at the client's business and walked them through the [SAMS.GOV](https://www.sams.gov) registration process first and was successful. Follow up meetings with the client resulted in completion of the Hubzone application and associated eligibility spreadsheet. Frank assisted the client in submitting the application and backup documentation. The client has been SBA Hubzone certified and is in a better position to compete on Federal Contracts.
